WHY CHOOSE US?

We continue a tradition of excellence in home health care services. We lead California. Silver Age Home Health Care Inc. was built on a philosophy of keeping the health and well-being of our clients the primary focus - this continues to date as the driving force for our company to continue serving. We provide assistance and care while our clients enjoy the comforts of a home setting.

OUR SERVICE PHILOSOPHY

We believe that quality care is achievable through dedication and focus. Our services are designed to give your loved ones a better lifestyle at home despite the challenges of old age or disability. We deliver services that are based on the identified needs of the patient while considering the professional advice from the family physician. Before a care plan is developed, we go through an assessment at the beginning. This enables the resulting care plan to be more effective when materialized.

Because we also uphold transparency, we make sure that our clients are well informed of their rights.
